Games

We are currently working on the Hotmoon game

HotMoon game is multiplayer and it is supposed to have a native token called HMG (HotMoon Games). This token is used in the game, but note that the condition of entering the HotMoon game world is that you have HotMoon Token in your wallet, and this HotMoon ecosystem becomes stronger and the HotMoon market grows. We are going to connect HMG and HotMoon ecosystem project in Stake

GAMES

HMG Token

HotMoon Games

Name : HotMoon Games

Symbol : HMG

Contract BSC :
